

ELECTRICAL CONTRACTOR 2010 EDITORIAL CALENDAR

JANUARY – JUNE

	JANUARY	FEBRUARY	MARCH	APRIL	MAY	JUNE
Focus/ Theme of Issue	Construction Outlook: This issue includes economic predictions for the upcoming year, a look at what OSHA plans to do in 2010 and more.	Renovation: Stories in this issue deal with the market for renovations in residential, commercial, industrial and institutional markets.	Residential Special Report: Columns and features will focus on electrical and low-voltage opportunities in the residential market.	Integrated Systems and Controls: Much growth has occurred in the use and implementation of integrated systems and controls, and stories this month will detail this increasing potential for ECs.	Safety: The magazine observes National Electrical Safety Month with features that deal with electrical safety for electricians and their customers.	Green Construction Special Report: The fourth-annual report focuses on the incredibly promising growth potential for electrical contractors in green construction, LEED projects and alternative energy.

ELECTRICAL CONTRACTOR 2010 EDITORIAL CALENDAR

JULY - DECEMBER

	JULY	AUGUST	SEPTEMBER	OCTOBER	NOVEMBER	DECEMBER
Focus/ Theme of Issue	Profile of the Electrical Contractor/Communications Systems and Cabling: The profile is a biannual survey of the electrical construction market. Also, stories will appear on comm. systems and cabling.	Design/ Build: The d/b project-delivery system has increased the influence of electrical contractors on project design and with project owners on product specification. Features will deal with how the EC can best work in this scenario.	NECA Show— Boston: In addition to information for the upcoming NECA Show, features will cover several other current aspects of electrical construction.	Training/ Education: The Profile of the EC (from July) uncovers training and education areas on which ECs wish to focus their efforts. Stories will provide information on training opportunities in some of those interest areas.	Tools and Equipment: In order to do their jobs properly, ECs must invest in tools and equipment to use on the job. This issue discusses some of those, including software, trends in tools and more.	Lighting Special Report: Features and columns this month will highlight lighting technology, new products, different lighting applications in a range of vertical markets and more.
